ABOUT ME

Studying Fashion Media and Promotion at University for the Creative Arts, I combine my artistic drive with market-related social strategies, to produce streamlined and affecting promotional content for a variety of brands.

My work is bittersweet. I use art to magnify beauty in unexpected places and am engrossed by the surreal, dark, and dreamy undercurrents in our surroundings, with imagery that is often underpinned by mythical iconography, intimate character studies, and social issue commentary.

7ALT WORLD | Graduate Project

Multi-media series

Enter the apocalyptic, fairy-tale dystopia..

Team
